

5.1b Estimating With Finite Sums

Ex 4 cardiac output

cardiac output = mg dye / area under curve

The image shows a TI-84 Plus calculator screen with a table of data. The table has two columns: 'time' and 'dye'. The data points are as follows:

	time	dye
1	5	0
2	7	3.8
3	9	8.
4	11	6.1
5	13	3.6

The calculator interface includes a cursor at the top left, a '1.1' and '1.2' indicator, a '5.1 cardiac' dropdown menu, and a 'dye' label at the bottom left.
